digiblu

Real-time drivers' hours & tachograph download via Bluetooth

TACHO·SYS

tachosys.com/digiblu

Pairing with phone or tablet

1. Insert the **digiblu** into the tachograph.
2. In the app, click the Bluetooth icon to open settings.
3. Click on 'paired device' and select the digiblu.
4. Enter the PIN from the printed barcode on the digiblu box.
5. Device is ready to use.

Pairing with digiconnect

1. Place the **digiblu** into the tachograph.
2. Open **digiconnect** on your PC and click the 'Options' icon.
3. Go to 'Bluetooth LE' Tab and select the digiblu from the list.
4. Enter the PIN from the printed label on the digiblu box.
5. Click 'Save' and then 'Apply'.

Compatibility

The **digiblu** is compatible with all major tachographs.
Real-time drivers' hours are only compatible with certain models.
Visit **www.tachosys.com/digiblu** for more information.
